The Lives of our Founders!

GOD IS GOOD — Mother Gabriele Bitterlich: Her Life and Work

Mother Gabriele Bitterlich was the instrument God used to introduce the *Work of the Holy Angels* into the Church. She was born into a hard-working middle class family in 1896 in Austria. She was a conscientious housewife and mother, with a profound interior life of prayer. She received private revelations from Our Lord, Our Lady and the holy Angels. With much spiritual and physical suffering, she offered herself to God for the salvation of souls, becoming a spiritual mother in the deepest sense of the word. We hope that this biography will help to enrich the members and friends of the Opus Angelorum with a better understanding of the founding charism, that we may better live out our vocation in the Church, the conscious collaboration with the holy Angels for the salvation of souls and the spiritual renewal of the Church.
